Yaskawa Electric Europe and Crompton Controls Ltd announce Distributor Partnership for the United Kingdom.

Effective immediately, Yaskawa Electric Europe and Crompton Controls are cooperating in the marketing of AC Inverter Drives for the United Kingdom. Under this partnership, Crompton Controls will integrate the complete Yaskawa Electric AC inverter drives portfolio into its comprehensive offering for motor control and automation. The offering will include the complete range of new drives V1000, J1000 & the brand new A1000 series, covering power ranges from 0.2 – 600KW

"Crompton Controls are delighted to work with YASKAWA in the UK, and partner the world leader of electrical drive technology" said Brent Mason, Managing Director of Crompton Controls Ltd. "This is an outstanding opportunity to build on the considerable strength's of both companies, and provide increased value to our customers."

United Kingdom customers will benefit greatly from this partnership as it will allow them to leverage the extensive engineering, application and service capabilities that Crompton Controls are known for.

"We are pleased to appoint Crompton Controls as a strategic partner for the United Kingdom," said Manfred Stern, President and COO of YASKAWA Electric Europe GmbH. "We are convinced that the service, support and application experience offered by Crompton Controls in motor control, combined with the high performance AC inverter range offered by Yaskawa will make this a winning combination in the United Kingdom market."
